About Multiple Sclerosis – The National Multiple Sclerosis Society – Bike MS

Multiple sclerosis is an unpredictable, often disabling disease of the central nervous system. There is currently no cure for MS. Most people are diagnosed between the ages of 20 and 50, and it affects women three times more than men. The National MS Society, founded in 1946, funds cutting-edge research, drives change through advocacy, and provides programs and services to help people affected by MS live their best lives. Bike MS is the largest fundraising cycling series in the world. Each year, nearly 75,000 cyclists and more than 6,000 teams ride together to change the world for people with MS.
